FRIDAY 17th March: Microsoft Research, 21 Station Road, Cambridge, UK

09.00-9-15 ARRIVE

09.15- 10.30 Project Report (suggestions for debate:-)

- International collaboration - include all variants in analysis ie 1-1 many-to-many - all types of collab count - result, best practice for simple v complex interactions - cultural differences etc
- approach who does what: Each do their national self-contained report (NOT notes) including each section
- section owners eg Hothousing extratc best parts, achievement and learning points and add overall framework
- section/report deadline missed - if 3 out of 4 inputs > section gets written
- Report <>KIKS site: item eg Chain reaction - summary in report with link to item on site - item on site has same summary and link to ppt pdf or url etc

Deadlines:

Multiplier

10.30-10.45 Break
